Profile

I'm a creative and self-driven professional Illustrator with 10+ years of experience in managing the complete design process, from conceptualization to delivery. I'm skilled at leading projects, interdepartmental coordination and communication, finding innovative design solutions and overall being a successful team player.

Work Experience

Illustrator • Freelance

December 2019 • Present • Remote

As a freelancer, i provide exceptional quality work in a timely manner. I ensure great communication and a good rapport with the client. I am fully committed to the client and supporting their project every step of the way.

Some project highlights

- Created illustrations in color for a children's book published by Lindbak+Lindbak Nordic Publishing House. The book comprised of 26 pages, with front and back cover. Released in April 2022 in Danish.
- Commissioned to create hand drawn illustrations based on the 19 analogies presented in the book "The Power of Joy" by author Kelley Cunningham. Published by FriesenPress and released in January 2022.
- Created an illustration selected for publishing in "Cloud Lake Literary" Magazine volume 2.
- Commisioned to illustrate an aerial view of Pinehurst No. 2 golf course in a stylized look.

Project Manager and Designer • Bombardier Aerospace

April 2013 • January 2019 • Montréal, Canada

- Developed the roadmap and established requirements through interdepartmental coordination and communication for a new authoring tool to be developed in-house.
- Managed a successful team of programmers, designers and business analysts. Had open communication, celebrated small wins and provided hands-on support.
- Supervised the creation of all graphic materials to ensure quality and accuracy of the design and the overall messaging of the brand and mission.
- Managed tasks and expected stakeholder deliverables while under pressure to meet weekly deadlines.

Work Experience continued...

Technical Illustrator • Bombardier Aerospace
February 2008 • April 2013 • Montréal, Canada

- Created technically accurate vector graphics of aircraft parts and aircraft procedures used in technical publications and eLearning content for training purposes.
- Was an active participant in providing the design solution of integrating animation and video to the training material in digital format for an enhanced student experience.
- Supported the creation of department marketing material for internal communication to employees. (logos, brochures, infographics, presentations and advertisement)

Graphic Artist • Bombardier Aerospace
June 2007 • January 2008 • Montréal, Canada

- Provided an excellent customer experience by creating custom aircraft safety cards as part of client's aircraft purchase package.
- Supported the creation of department marketing material for internal communication to employees. (logos, brochures, infographics, presentations and advertisement)
